

# **MARYLAND PORT ADMINISTRATION**

## **Tenant Security Alert**

### **NO Fishing/Crabbing from MPA Facilities**

Effective immediately, in the interest of both Security concerns as well as personal safety, please be advised that Fishing and/or Crabbing of any kind from any Maryland Port Administration dock/pier/ramp is **strictly prohibited**.

The MdTA Police have been instructed to actively enforce this policy. If you are observed either Fishing or Crabbing from an MPA facility, regardless of the circumstances, you will be considered to be on Port property engaging in activity that is not Commercial in nature, as such you will be treated as a trespasser and escorted from the facility.

In order to regain access privileges to the Facility, you will need to have your Employer request in writing to the MdTA Police Port Detachment detailing the circumstances of the occurrence. After proper review, your port access privileges may be reinstated.

Please distribute this Alert to all company staff, ILA workforce and State workforce.

Thank you for your cooperation.

David M. Thomas  
Director of Operations
